

# CY2022 RESIDENT COURSE CALENDAR

## Institute for Security Governance

QUARTER 2	MASL#	COURSE TITLE	EVENT DATES	CERTIFICATION
	P170001	Executive Program in Defense Decision Making	31 Jan - 11 Feb 2022	PME, E-IMET, CTIWFP/RDFP
	P179840	Women in Strategic Defense and Security Decision Making	14 - 25 Feb 2022	PME, E-IMET
	P159200	Principles of Defense Acquisition Management	28 Feb - 11 Mar 2022	PME, E-IMET
	P159202	Principles of Defense Procurement and Contracting	14 - 25 Mar 2022	PME, E-IMET
	P179069	International Defense Acquisition Negotiations	28 Mar - 06 Apr 2022	PME, E-IMET

QUARTER 3	MASL#	COURSE TITLE	EVENT DATES	CERTIFICATION
	P170475	Civil-Military Coordination in Disaster Relief	11 - 22 Apr 2022	PME, E-IMET
	P173019	Security and Irregular Migration	25 Apr - 06 May 2022	PME, E-IMET
	P170030	Managing Internal Conflict	09 - 20 May 2022	PME, E-IMET
	P179018	Civil Military Responses to Terrorism	25 Apr - 06 May 2022	PME, E-IMET, CTIWFP/RDFP
	P170001	Executive Program in Defense Decision Making <b>CANCELED</b>	09 - 20 May 2022	PME, E-IMET, CTIWFP/RDFP
	P170370	Cybersecurity Policy and Practice	06 - 17 June 2022	PME
	P179018	Civil Military Responses to Terrorism	27 Jun - 8 July 2022	PME, E-IMET, CTIWFP/RDFP
P179548	Fundamentals of Maritime Security	11 - 22 July 2022	PME, E-IMET, CTIWFP/RDFP	

QUARTER 4	MASL#	COURSE TITLE	EVENT DATES	CERTIFICATION
	P170024	Defense Governance	25 July - 05 Aug 2022	PME, E-IMET
	P179931	Institutional Capacity Building for Logistics	08 - 19 Aug 2022	PME, E-IMET
	P179897	Securing the State: Building Institutions for National Security	22 Aug - 16 Sep 2022	PME, E-IMET
	P179898	Strategies and Capabilities for Cyber Challenges	22 Aug - 16 Sep 2022	PME
	P179940	AFRICOM Women in Strategic Defense & Security Decision Making * joint ISG / DIILS offering conducted in Newport, RI USA (French)	12 - 23 Sep 2022	PME, E-IMET (pending)

QUARTER 5	MASL#	COURSE TITLE	EVENT DATES	CERTIFICATION
	P159200	Principles of Defense Acquisition Management	17 - 28 Oct 2022	PME, E-IMET
	P159202	Principles of Defense Procurement & Contracting	31 Oct - 11 Nov 2022	PME, E-IMET
	P179069	International Defense Acquisition Negotiations	14 - 23 Nov 2022	PME, E-IMET
	P179840	Women, Leadership, and National Defense	31 Oct - 11 Nov 2022	PME, E-IMET
	P173019	Security and Irregular Migration	14 - 23 Nov 2022	PME, E-IMET
	P179548	Fundamentals of Maritime Security	05 - 16 Dec 2022	PME, E-IMET, CTIWFP/RDFP
	P170001	Executive Program in Defense Decision Making	05 - 16 Dec 2022	PME, E-IMET, CTIWFP/RDFP

This calendar was adjusted in April 2022. If applicable, Restriction of Movement (ROMs) are the two week duration (Friday-Friday) prior to any pipeline. Abbreviated resident course descriptions are located on the next page. For full course descriptions, visit [instituteforsecuritygovernance.org](http://instituteforsecuritygovernance.org). Courses are typically funded by IMET, FMF, FMS, CTIWFP/RDFP, PKO, and other DoD-wide O&M funds (333, 332, MSI, etc.) on a case-by-case basis. Cost estimates can be obtained by contacting ISG at [ISG\\_IMSO@nps.edu](mailto:ISG_IMSO@nps.edu) or applicable NETSAFA Country Program Manager.

#### **P170001 - Executive Program in Defense Decision Making**

The goal of this seminar is to empower participants with the knowledge and skill sets needed to be effective decision-makers, and act as agents of change to transform their security institutions to address ever-evolving national security challenges.

#### **P179840 - Women in Strategic Defense and Security Decision Making (New title: Women, Leadership and National Defense)**

This course supports Partner Nations as they develop and implement gender policies aimed at augmenting the representation and prospects for women in security and defense institutions. It provides practical, strategic, and political insights into women's inclusion and promotion within decision and policymaking processes.

#### **P159200 - Principles of Defense Acquisition Management**

This course provides participants with an understanding of the important concepts associated with defense acquisition and logistics decision making in a variety of national settings. Participants will examine the complete defense acquisition life cycle from planning through equipment disposal. International best practices are discussed along with the challenges associated with implementation.

#### **P159202 - Principles of Defense Procurement and Contracting**

This course provides a theoretical and practical examination of all phases of the contracting process. Fundamental concepts are discussed for both national and global defense contracting. International best practices are examined along with the challenges associated with institutionalizing efficient and effective procurement systems.

#### **P179069 - International Defense Acquisition Negotiations**

This course focuses on planning and preparing for negotiations with an emphasis on negotiation of complex issues international armaments contracts. Particular emphasis is placed on the strategies, techniques and characteristics of good negotiators. Participants learn their negotiating style tendencies and how and when to adapt their negotiation style given the behavior and goals of the parties. Extensive in-class negotiations are conducted.

#### **P170475 - Civil Military Coordination in Disaster Relief**

This course develops a comprehensive understanding of how national governments organize and use their armed forces to support domestic disaster response and international operations. It emphasizes cross-community understanding that focus the ways that armed forces, government civilian agencies, nongovernmental organizations, and inter-governmental organizations can work more effectively alongside each other in disaster relief.

#### **P173019 - Security and Irregular Migration**

This course is designed to assist those responsible for the complex state security and humanitarian challenges that are posed by irregular migration. To overcome these challenges, this course will focus on how to prepare for, respond to, and work together in the management of irregular migration. The course explores comprehensive approaches, accompanying capabilities, and effective policies for the management and treatment of irregular migrants. It also investigates how whole-of-government approaches to irregular migration deter bad actors, strengthen society, secure the homeland, and meet foreign policy goals.

#### **P170030 - Managing Internal Conflict**

This course explores the causes of and responses to conflict within a country such as violent religious fundamentalism, terrorism, ethnic & communal violence, separatism, and insurgency. Many countries must confront these situations at home as well as abroad, such as during peace operations. Participants learn and practice conflict analysis techniques, gain exposure to prevention and political-military response strategies, and discuss security sector capabilities needed to respond effectively.

#### **P179018 - Civil-Military Responses to Terrorism**

This course provides a holistic understanding of terrorism as one of many transnational threats all governments face. The program utilizes case studies and a table top exercise to stimulate discussion which assists in providing participants with the insight needed to design successful strategies to defeat terrorist networks, protect citizens and property, and address the root causes of terrorism.

#### **P170370 - Cybersecurity Policy & Practice**

This course is intended for nations that are interested in developing capabilities to defend cyberspace from attack. National security, economic prosperity, and citizen safety are threatened daily through exploitation, intrusion or disruption in cyberspace by criminal, transnational, or regional competitors. This offering explores cyber concepts and evolving technologies for decision makers to design and implement policies and practices for safeguarding the use of cyberspace.

#### **P179548 - Fundamentals of Maritime Security (formerly "Civil-Military Approaches to Maritime Security")**

This course covers transnational maritime threats (terrorism, armed robbery at sea, smuggling and trafficking of arms, drugs and people, IUU fishing, cyber, and pollution), and provides tools, strategies, and best practices to address those threats. It emphasizes how to enhance maritime domain awareness, maritime governance, port security, institutional capacity, and human capital development.

#### **P170024 - Defense Governance**

The goals of this course are to empower participants with the knowledge and skill sets to successfully govern defense institutions in whole-of-government planning and operations and to bolster efficiency and effectiveness within and between defense institutions in order to better address national security challenges.

#### **P179931 - Institutional Capacity Building for Logistics**

This course provides participants an opportunity to better comprehend and apply logistics management concepts and principles to build and strengthen their logistics institutional capacity. It examines eight logistics topics including logistics governance and operational planning. The course is a mixture of readings, lectures, discussions, and small group application cases and exercises.

#### **P179897 - Securing the State: Building Institutions for National Security**

This course equips participants with the skills needed to utilize capabilities-based assessments to identify capability gaps in the security and defense arenas. The course uses a mix of lecture, interactive small group sessions, simulation exercises, and discussion with subject matter experts to explore how to prepare national security institutions to address the national security threats. The course offers approaches to ensure healthy civil military relations and interagency coordination to ensure effective, whole-of-government responses to national security challenges.

#### **P179898 - Strategies and Capabilities for Cyber Challenges**

This course equips participants with the knowledge and skills to understand cyber threats, vulnerabilities and their consequences for national security and military operations. The course explores strategies and capabilities to maintain an advantage over actors who seek to exploit, disrupt, or damage critical networks, systems, and services that our societies and militaries depend upon. Instructors highlight the importance of a comprehensive approach that applies whole-of-government coordination, regional collaboration, and public-private partnership to counter cyber-enabled malicious actors across the spectrum of conflict.
