- Country Desk Officers
- Country Case Managers
- SAPM
- Supervisors
- Directors
- Regional Managers

Functional Area Description

The Assessment, Monitoring and Evaluation (AME) functional area is designed to prepare the AME professional to plan and execute monitoring and evaluation programs. Monitoring and evaluation methods are used to measure, capture, and provide accurate information to make evidence-based, strategic decisions that can affect funding, resource allocation, program management, and/or policy formulation. This curriculum is designed around the critical concepts of monitoring and evaluation as a science.

How will this prepare you better for your work?

Monitoring & Evaluation is a core planning process for Building Partnership Capacity (BPC) programs. At the end of the Practitioner certification pathway, the AME professional will have the knowledge requisite to plan, gather, and measure data in support of monitoring and evaluation plans.

Practitioner Certification Program of Study
